

Installation of R

Step 1: Install R

1. Go to the official R download site: <https://cran.r-project.org/>
2. Click on “Download R for Windows”
3. Click on “base” (for the base system)
4. Click on “Download R-x.x.x for Windows”
(e.g., "R-4.5.0 for Windows")
5. Once downloaded, run the .exe file:
 - Click Next until the installation begins.
 - Keep default settings unless you have specific needs.
 - Wait for it to finish and click Finish.

✓ R is now installed!

Step 2: Install RStudio

1. Go to: <https://posit.co/download/rstudio-desktop/>
2. Scroll down to the free version and click:
 - Download for Windows
3. Once downloaded, run the installer:
 - Click Next, accept license, and install.

✓ RStudio is now installed!

4. Launch RStudio — it will automatically detect R.
