

Step 1:

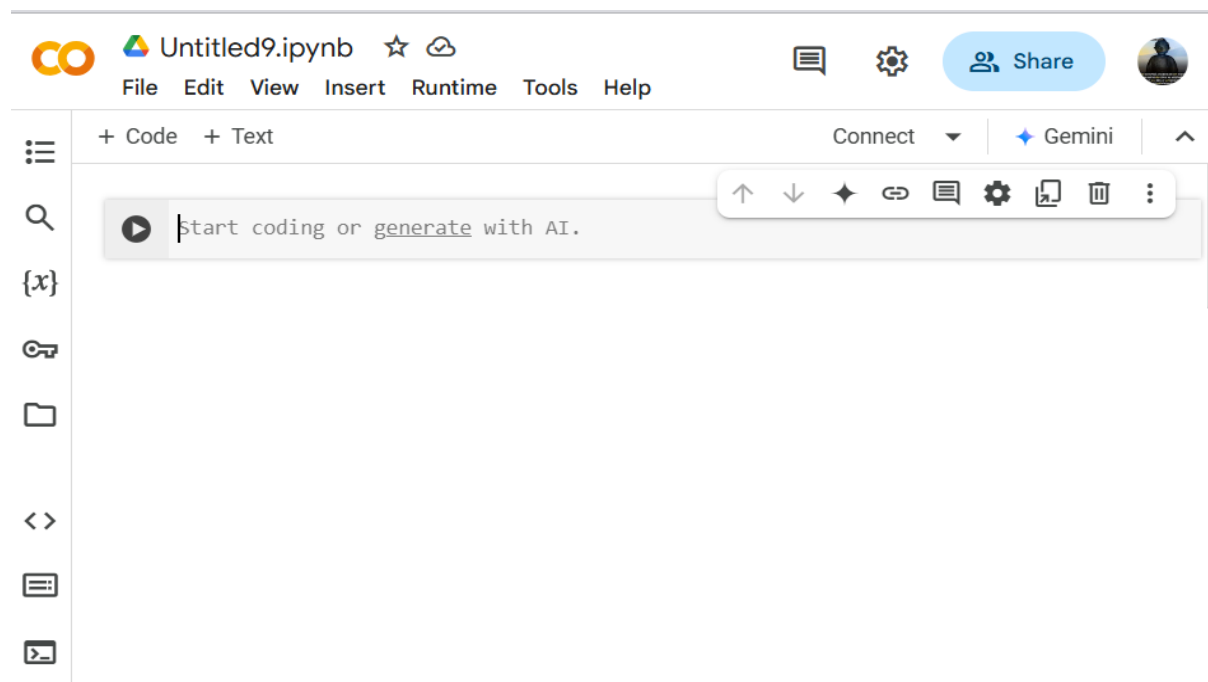

A screenshot of a Google search for "google colab". The search bar shows "google colab" with a search icon. Below the search bar, the "All" tab is selected. The first search result is for "Google Colab" with the URL "https://colab.research.google.com". The result includes a "Welcome To Colab - Colab - Google" heading and a description: "Colab notebooks allow you to combine executable code and rich text in a single document, along with images, HTML, LaTeX and more. When you create your own Colab ...". Below this, there are five expandable cards: "Google Colab" (Sign in.), "Colaboratory" (With Colab you can import an image dataset, train an image ...), "Jupyter.ipynb" (This section describes how to edit and run the code in each ...), "Pro" (Colab Pro+ ... An additional 400 compute units for a total of 500 ...), and "Run in Google Colab" (Colab Specifics ... Colab is a virtual machine you can access ...). At the bottom of the first result, there is a link "More results from google.com >". The second search result is for "colab.google" with the URL "https://colab.google". It includes a "Google Colab" heading and a description: "Colab is a hosted Jupyter Notebook service that requires no setup to use and provides free access to computing resources, including GPUs and TPUs."

Step 2:

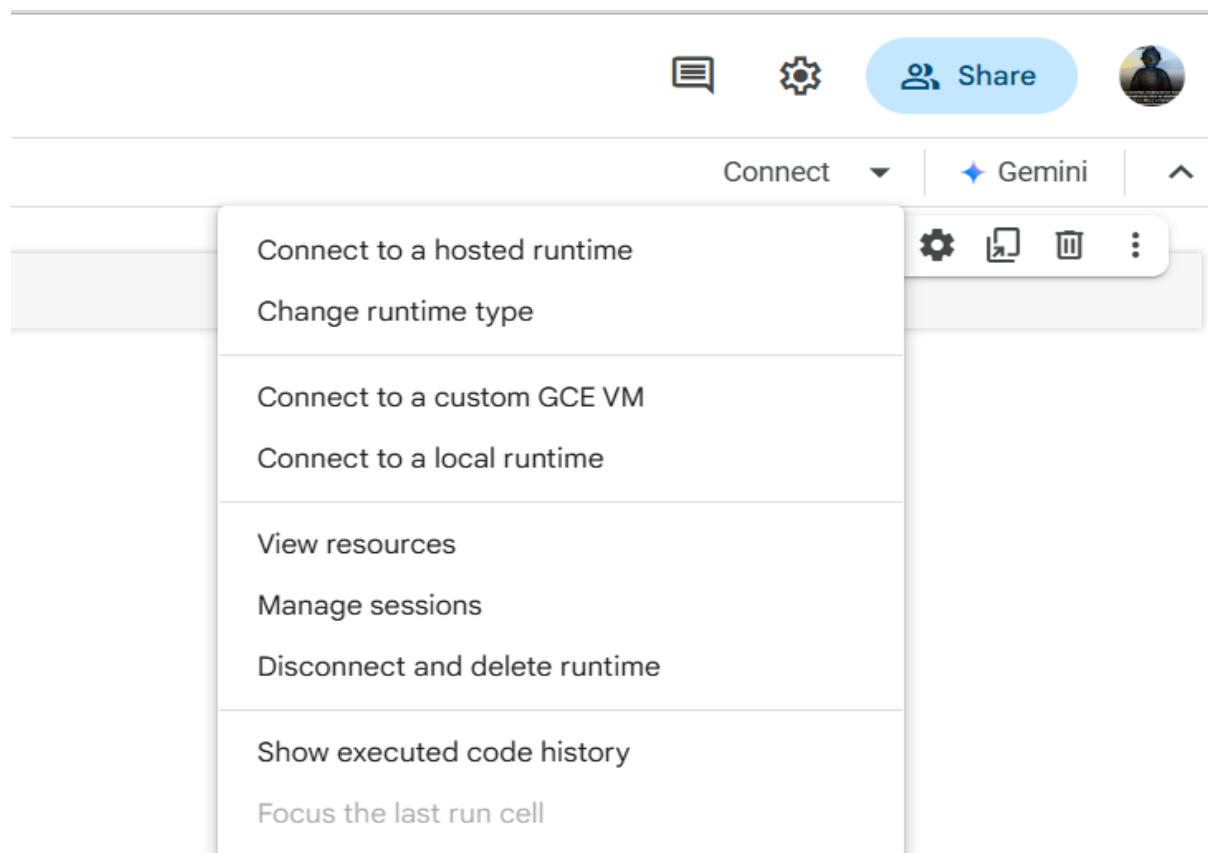

A screenshot of the Google Colaboratory landing page. The page features a large background image of a server room. In the center, there is a white box with the heading "Google Colaboratory" and a description: "Colab is a hosted Jupyter Notebook service that requires no setup to use and provides free access to computing resources, including GPUs and TPUs. Colab is especially well suited to machine learning, data science, and education." Below the description are two buttons: "Open Colab" and "New Notebook". At the bottom of the page, there are two sections: "BLOG" with the heading "News and Guidance" and a description "Features, updates, and best practices", and "EXPLORE" with the heading "Browse Notebooks" and a description "Check out our catalog of sample notebooks illustrating the power and flexibility of Colab." Both sections have a button: "Read our blog" and "Browse notebooks" respectively.

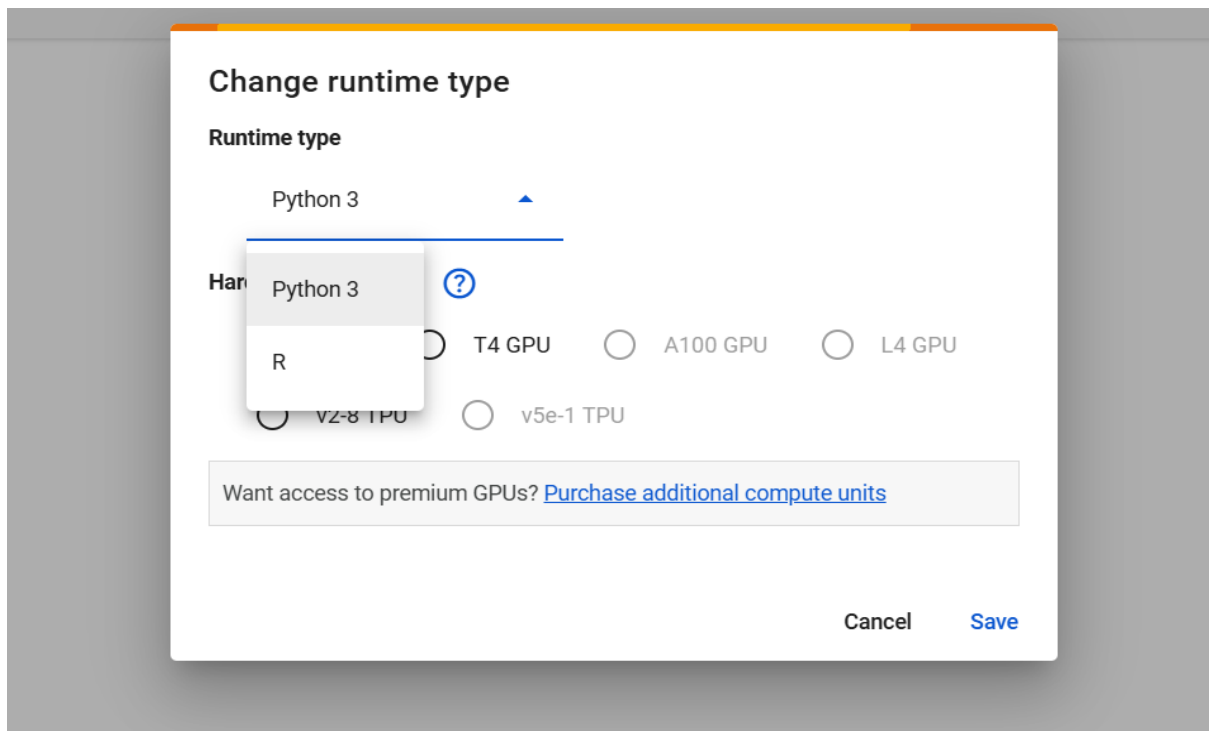

Step 3:

Step 4:

Step 5:

Step 6:
